

SAS presents traffic program for the fall

As demand for both leisure and business travel increases, SAS continues to expand the number of flights. SAS will be flying more than 160 direct routes to 90 destinations during this fall.

SAS increases the flights between the Scandinavian capitals and important destinations in its network to further improve connectivity for travelers. SAS will now be serving all its domestic destinations in Norway and Sweden when the Arlanda-Sundsvall route is reopened in September. In addition, the number of flights to important destinations for travelers in Europe will increase.

The rising interest in weekend trips and city breaks to European cities makes SAS resume its routes to Amsterdam, Dublin, Florence, Krakow and Prague. There is also an increasing number of flights to warmer Mediterranean destinations in southern Europe and the Canary Islands to meet the growing demand from holidaymakers.

SAS will be flying more direct routes from the Scandinavian capitals to several US destinations from September onwards and will also be present in Asia on routes from Copenhagen to Tokyo and Shanghai.

The full list of SAS destinations for fall 2021 can be found at the bottom of this press release.

SAS Flexible options

SAS has introduced more flexible rebooking options to make things easier for the customers. Read more about [SAS Flexible Booking](#).

SAS Safe travel

SAS has introduced a range of measures and procedures to ensure safe air travel during the pandemic. To make it easier for SAS travelers, SAS has developed a digital platform, [SAS Travel Ready Center](#), where travelers can prepare for their travel, check out entry restrictions and requirements for travel.

SAS new fleet with reduced emissions

SAS continues to bring in new and fuel-efficient aircraft and has one of Europe's most modern fleets. The new aircraft have 15–30% lower fuel consumption, compared with the aircraft they replace. The new state-of-the-art aircraft will give SAS customers a more pleasant, comfortable and sustainable way of traveling.

SAS Route offering Fall 2021

Stockholm	Copenhagen	Oslo	Bergen

SAS, Scandinavia's leading airline, with main hubs in Copenhagen, Oslo and Stockholm, flies to destinations in Europe, USA and Asia. Spurred by a Scandinavian heritage and sustainability values, SAS aims to be the global leader in sustainable aviation. We will reduce total carbon emissions by 25 percent by 2025, by using more sustainable aviation fuel and our modern fleet with fuel-efficient aircraft. In addition to flight operations, SAS offers ground handling services, technical maintenance and air cargo services. SAS is a founding member of the Star Alliance™, and together with its partner airlines offers a wide network worldwide.
