

# SAS inaugurates route to Toronto from Copenhagen and Stockholm with new long-range aircraft

SAS is expanding its network in North America and is now starting direct routes to Toronto from Copenhagen and Stockholm. SAS will operate three weekly flights from Copenhagen and four weekly flights from Stockholm with its brand-new A321LR aircraft. The inaugural flight takes place on June 2<sup>nd</sup> from Copenhagen to Toronto. The first flight from Stockholm-Arlanda will take place the following day.

Toronto is the fourth largest city in North America, and an international center for business and finance. A truly cosmopolitan city with a vast array of experiences, it allows travelers to enjoy anything from major sports and cultural events, to great outdoor scenery around the Great Lakes.

*“We are delighted to connect Canada and Scandinavia and fly to Toronto with our latest generation aircraft, which is ideal for this route. Using the A321LR means we can connect even more parts of the world and it is well suited for the Scandinavian market and the emerging travel patterns to and from the region,”* says Anko van der Werff, President & CEO, SAS

*“SAS aims to be a global leader in sustainable aviation. As we continue to phase in new, fuel-efficient aircraft such as the A321LR, we now have one of Europe’s most modern fleets. This state-of-the-art aircraft will give our customers an even more pleasant, comfortable and sustainable way of traveling,”* van der Werff continues.

The Toronto routes will be operated with a three-class configuration with 157 seats; 22 seats in SAS Business, 12 seats in SAS Plus (premium economy), and 123 seats in SAS Go (economy).

In the coming summer season, SAS will fly to a total of seven destinations in the US and Canada: Boston, Chicago, Los Angeles, New York, San Francisco, Washington DC, and Toronto.

Schedules to and from Toronto:

Copenhagen-Toronto: Tuesday, Thursday, and Saturday

Toronto-Copenhagen: Monday, Wednesday, and Friday

Stockholm-Toronto: Monday, Wednesday, Friday and Sunday

Toronto-Stockholm: Tuesday, Thursday, Saturday and Sunday

## Facts about Airbus 321LR

The aircraft has 22 Business, 12 Plus and 123 Go, meaning a total of 157 seats in a single aisle aircraft. The seats are especially chosen for the A321LR to optimize the comfort in all three travel classes. Seats in SAS Business are fully flat seat beds and there are different mood light scenarios in the cabins, as well as hi-speed Wi-Fi. Every seat is equipped with IFE screens, PC-power and/or hi-power USB. The reduced noise level inside the cabin will further enhance the travel experience onboard.

The A321LR is part of SAS’ ongoing fleet renewal and will reduce climate-impacting emissions in comparison to previous generations of similar aircraft.
