

SAS RETURNS TO AFRICA BY FLYING TO AGADIR THIS UPCOMING WINTER

Starting 4th of November, SAS returns to Africa with weekly flights to Agadir, Morocco. SAS will fly to Agadir from both Copenhagen and Stockholm during the winter season until end March 2024, offering a convenient timetable with daytime departure and arrival.

“We are excited to see the world traveling again and it’s with great pleasure we can offer new destinations this coming winter. Adding beautiful Agadir to our network means we will fly to Africa again for the first time in decades”, says Erik Westman, EVP & CCO, Network and Revenue management.

Agadir is well known for its long beaches, warm winter weather and beautiful scenery. The area also offers plenty of activities such as golf, great surfing, and a chance to enjoy the exquisite Moroccan cuisine.

SAS will operate the Agadir route using Airbus A320Neo aircraft, the most efficient single-aisle aircraft, with 20% savings on fuel efficiency and emissions, seating up to 180 passengers in 2 classes – SAS Plus and SAS Go.

Schedule to Agadir from Stockholm and Copenhagen:

Schedule on Saturdays

SAS, Scandinavia’s leading airline, with main hubs in Copenhagen, Oslo and Stockholm, flies to destinations in Europe, USA and Asia. Spurred by a Scandinavian heritage and sustainability values, SAS aims to be a driving force in sustainable aviation and in the transition toward net zero emissions. We will reduce total carbon emissions by 25 percent by 2025, by using more sustainable aviation fuel and our modern fleet with fuel-efficient aircraft. In addition to flight operations, SAS offers ground handling services, technical maintenance and air cargo services. SAS is a founding member of the Star Alliance™, and together with its partner airlines offers a wide network worldwide.
